

QUALITY POLICY, ENVIRONMENT, ROAD SAFETY AND SAFETY AND HEALTH AT WORK

COOPERATIVA DE BASCULANTES, S.C.L. (CODEBAS) is responsible and acquires the firm commitment to establish, develop and continuously improve a Quality, Environment and Road Safety and Health at Work System based on the standards UNE-EN-ISO 9001: 2015, UNE-EN-ISO 14001: 2015, UNE-ISO 39.001: 2013 and the OHSAS 18001: 2007 standard for its activities of "Freight transport by road". To this end, the action guidelines for the execution of the works are based on the following pillars:

To satisfy the needs of the client, providing a quality service based on the effective management of our means and resources within the established deadlines.

Continuous analysis of information, both our own and that provided by our clients, in the face of prevention of possible failures and continuous improvement of the processes.

Our goal is to achieve a work methodology based on anticipation, avoid failures before they happen.

Continuously improve the quality of our services, as well as our attitude towards the environmental impacts generated by our activity, as well as road safety and health and safety at work, committing to the reduction of accidents.

Commitment to the protection of the environment, including the prevention of pollution that CODEBAS activity could generate, as well as the rational use of natural resources.

Improve the prevention of damages and avoid the deterioration of workers' health.

Improve road safety, working to eliminate all types of accidents, regardless of their severity and consequences.

Integrate the prevention of occupational risks in the set of activities and decisions at all hierarchical levels.

Encourage communication with workers and their active participation in decision-making to improve the Management System implemented.

Optimize exhaustible natural resources, with special emphasis on the awareness of workers to minimize fuel consumption.

Commitment to comply with the established legal and regulatory requirements, as well as the requirements established by our clients.

To provide our employees with the knowledge and resources for responsible performance of their activities, with special emphasis on environmental awareness and safety at work, as well as road safety.

Integrate our suppliers and subcontractors in the commitment to quality, respect for the environment, road safety and the prevention of occupational risks.

The Governing Board of CODEBAS, requests the collaboration of all the personnel so that in the performance of their activities they fulfill the commitment of Quality, Environment and Road Safety and Labor Health participating each and every one according to the responsibility and authority that corresponds to them .

For this, it is communicated to the entire company for its knowledge, understanding and compliance and is available to any person or entity that requests it. In addition, it is revised, analyzed and updated for its continuous adaptation.

Signed: The President 01/12/2017
